

To: FCC

I am surprised and disappointed that a Few Gov't officials are introducing a bill that further limits my rights of freedom. I am a subscriber of XM radio for over a year. I have enjoyed the advantages of programming that XM Radio provides. Why would a couple of Congressmen enter a bill that limits my freedom? Is it greed? Are they being influenced by a strong lobbyist group NAB? What purpose does a bill serve that restricts my ability to access important information such as traffic reports and weather? I pay for this premium service for a reason, excellent broadcasting.
